Alpha

Dear Mr. Beacham,

Hey! Hope things are going well for you. For Catholic Schools week I am being forced to write a letter about a teacher I appreciate. Obviously I think this is lame but I decided to prek you. Believe it or not but all those random grammar papers we did in eigth grade has helped me tremendously. Even all those vocab tests we did has helped me with my writings (I may still write casually but at least I throw in a good word or two every once in a while.) I just wanted to say thank you for always pushing me to work harder (especially when I didn't feel like doing anything.) ... which was LITERALLY all the time. You were a star teacher (throwback to when you dressed up as Dorothy from the Wizard of Oz # Never forget) & even in high school your name is mentioned fondly among the alpha kids. Thanks for all you did for me & all you continue to do for the kids who grace your classroom today. (take it easy on my brother when you get him, he only has slightly more motivation then I did in school.) Hope to visit sometime soon to get to see you again before I go off to college.

Thanks one more time,
Molly
